<b>Highlights</b>	:	Chocolate Hills, Tarsier “smallest primate”, Loboc River Cruise with exclusive lunch

### ***Tour Description:***

Take a 30 minutes flight onboard our private chopper flying over the iconic and unique panorama of thousands haycock hills which turn into a confectionery spectacle in summer. Meet the bashful tarsiers in the natural habitat, among the hills in Corella. Considered the smallest primate in the world, the nocturnal creatures measure approximately 11cm, with tails longer than their bodies.

Wrap up your tour with an exclusive lunch onboard a local boat at Loboc River. Pump boats adorned with buntings will take you on a scenic ride past palm-fringed banks, lush inland vegetation and pastoral scenes. The ride ends near the Tontonan waterfalls, where cascading waters provide a bracing dunking session. There’s more – sing and dance with the villagers along the river banks.
